High Quality Cable Assemblies

LÜTZE's cable assemblies are used in almost all industries, but most notably in the areas of machine engineering, energy technology, and electromechanics. LÜTZE has more than 20 years' experience here, and works closely with its international sales companies and representatives for the largely global customers.

The chief principle for LÜTZE cable assemblies is quality assurance according to QM management system, ISO9001, supported by our internal CIP processes.

It is second-nature for LÜTZE to actively advise and support customers, thereby continuously improving each individual customer's benefits.

The LÜTZE system questionnaire guides you through all relevant questions for an optimal result.

PUR helical cable unshielded

Usage for machine and plant construction, transport and conveyor technology specially for rugged industrial environment. Very good restoring force, low adhesion, good cut and wear-resistance. For special lengths and styles you can use our convenient template for queries.

Patch cable shielded

Cat.5e/Cat.6

Ethernet-network wiring usage, configuration according to EIA/TIA 568B.
Supplied in standard lengths of 0.5 m - 30 m, other types on request.

Assemblies for servo-drive

Servo-motor cables and feedback cables according to Siemens, Bosch-Rexroth (INDRAMAT) and Allen Bradley standards. Appropriate for fixed installation but also optimally suitable for C-track use, extremely harsh operating conditions, aggressive coolants and lubricants.
